### Athletics Whip Stettler By 3-2 Score; Draw with Wetaskiwin 6-6

#### Stettler Downed In Ragged Fixture

Lacombe downed Stettler in a rather ragged hockey game played before about 350 people at the local arena here Thursday night. At no time during the evening did Lacombe show the combination and fight which they have displayed in other contests this year. Ice was rather slow for a fast game and back checking was exceptionally close, with the result that play was in the center ice zone for the major part of the game. It was Tomalty that spark plugged the team to victory with fast breaking rushes down the ice and rugged defence work.

Body checks were handed out liberally by the defences of both teams as forwards were bounced at both ends. Lacombe came from behind again to win the rather featureless game. Stettler scored the first goal with a smooth pass from Taylor, which Sharpe made no mistake in placing behind Stewart. Cliff and Tomalty combined a few minutes later on a nice play to make the score 1-1. Stettler came bouncing back into the score column again, however, before the end of the period when J. Wilson took a short pass from Seebe to beat Stewart.

Early in the second period Miles countered from Haverstock to make the game again all-even. Stewart made several nice saves as the Stettler forwards sifted through right on top of him. In the dying minutes of the game Haverstock scored on a pass from Miles to make the score 3-2 for Lacombe. And it stayed that way.

#### This Week's Thought

All achievement is born of dreams followed bravely to an unknown destination.

#### Wetaskiwin Held For First Time

Staking wide open both ways, the Lacombe Athletics and Wetaskiwin Colonels battled to a 6-6 overtime score in a Central Alberta Hockey League game in Wetaskiwin Monday afternoon.

It was the best hockey game in the league thus far for thrills and excitement as the teams played classy hockey. Scrambles and pile-ups in front of both nets brought the Wetaskiwin crowd to their feet time after time as forwards missed wide open nets.

Lacombe tallied first in the initial period when Roberts flipped a shot which was deflected into the Wetaskiwin net. The Colonels came back fast to even up the score when Torry banged in a relayed pass from Bergen and Kirstein. It was Roberts again that put Lacombe up before the end of the period when he scored on a pass from Miles to dent the twine behind Baker. Stewart saved time after time as the Colonels swept in only to miss the net or shoot straight at the goalie.

The second period was wide open hockey, with the Athletics countering twice on goals by Tomalty and Chapman and the Colonels scoring once when McLaughlin beat Stewart on a nice solo effort.

Wetaskiwin slipped into the lead midway in the third frame when they ran up three goals for quick succession as the Athletics became momentarily disorganized. Facing a 5-4 deficit with less than five minutes to go, Tomalty led his black-shirted players up the ice in a furious power play that netted the tying goal when Haverstock passed to Tomalty for the corner.

The overtime period provided thrilling hockey, with Lacombe Brooks countered for the Athletics to put Lacombe one up, but Wetaskiwin came back fast to even up the score. The game ended with five Athletics inside the net.

**Local School and C.J.C. Hockey Teams Draw, 5-5**

A hockey team of Grade 10 and 11 students battled to a 5-5 draw Tuesday afternoon in the arena here with the Canadian Junior College aggregation providing the opposition. It was a fast game throughout, with the score a good indication of the play. Immediately after this game, the boys took on the Sylvan Lake High School team, the locals coming out on top by a 6-3 score. Friday the boys will travel to Sylvan Lake to play a return match.

**ALIX DOWNS CLIVE**

11-1 IN HOCKEY GAME

In another hockey game at the Clive rink between Alix and Clive teams on Friday, Dec. 23, the score was 11-1 in favor of Alix. The Clive boys hope to do better next time.

#### Constable Mosier Commended by Police Magistrate

A letter of commendation from Magistrate G. O. B. Gore-Hickman regarding Constable Cecil Mosier of the local police staff has been received by Mayor Thomas Wilkes. Magistrate Hickman paid tribute to the police officer's "intelligence, keenness and courage" in the apprehension of automobile thieves in recent months.

Referring specifically to the five youths arrested this month after an eight-mile chase to Gull Lake, Magistrate Hickman wrote: "It was owing to his police acumen, coupled with resource and courage that five criminals were arrested."

**Morningside Xmas Concert Well Attended**

(From Our Own Correspondent)

MORNINGSIDE.—The Morningside school children held their annual entertainment and Christmas tree in the church last Friday evening before a large crowd. E. A. Carrill acted as chairman. The program consisted of dialogues, recitations, choruses and drills. The church and Christmas tree were nicely decorated.

Jolly old St. Nick came bounding in just at the right time. With the assistance of several others, he unloaded the tree, which fairly creaked under the load of beautiful gifts. The regular bags of candies and nuts were given to the children; boxes of apples and pop corn were passed around and a very enjoyable half hour was spent.

Much credit is due Mr. Morris, the teacher, and Mrs. Bruce Stephens, who acted as pianist, for the very pleasant evening.

Among those taking part were Don and Pat Carter; Leora and Mack Grimes; Allan and Betty Grierson; Clara Nord; Elaine and Marie Beranek; Kathleen Jones; Bill Riddoch; Flora, Bill and Alex Murdoch; Murray, Kenneth, Hughie and Gordon MacKinnon; Lena and Andrew Semchuk. Special mention can be made of Maxie Jones and Donald Braun, two little lads under school age, who gave recitations and brought hearty applause.

#### Australia's Government House

Here Australia's Royal Vicerey will live when the Duke of Kent takes up his duties as Governor-General of that Dominion. The handsome mansion stands in spacious grounds at Canberra, the "planned" capital.

### J. T. Finlayson, Sixty-One-Year-Old Lacombe Old Timer, Died Saturday

#### Stores Closed On Tuesday Afternoon in Deference to Deceased; Was Secretary Of St. Andrew's United Church Board

James T. Finlayson, old-timer and highly respected resident of Lacombe since 1906, passed away suddenly at the Lacombe and District Community Hospital at midnight last Saturday. His death came as a great shock to his many friends and cast a gloom over Christmas festivities. He was at his duties in the A. M. Campbell store as usual last Saturday morning, but at noon suffered a heart attack and received medical attention at his home, being removed later to the hospital, where he succumbed. In deference to the deceased, all stores in town were closed at one o'clock Tuesday, the day of the funeral, and a large number of friends and acquaintances crowded St. Andrew's United Church in the afternoon to pay their last respects. Rev. A. L. Carr officiated at the service and paid a glowing tribute to the deceased, "who in his Christian spirit had been a worthy official and supporter of the United Church for many years. He will be greatly missed, of that there is no doubt," stated Mr. Carr. Pallbearers were Howard Landon, Perry W. Pratt, Seymour Edmonds, F. E. McLeod, J. N. B. MacDonald and Duncan Cameron.

Mr. Finlayson, who was sixty-one years of age at the time of his death, was born in Glasgow, Scotland. In 1906 he traveled to Canada, coming straight to Lacombe, where he took up a position with A. M. Campbell, Ltd., as accountant. This position he has held for the past thirty-two years, during which time he had become an extremely well known figure in Lacombe. He was an outstanding citizen, a particular friend of each member of the A. M. Campbell Department Store staff, and his integrity was above reproach.

For twenty-six years Mr. Finlayson has acted as secretary of the St. Andrew's Church Board, the duties of which he carried out efficiently and effectively.

The members of Magnet Lodge L.O.O.F., in which the deceased had been a member of the past 27 years, attended in a body and took charge of the service at the graveside.

The deceased leaves to mourn his loss his daughter, Margaret; one brother, Thomas, in Castor, and two sisters, Mrs. J. McNab of Calgary and Mrs. H. Hull of Swanssea, Wales, Great Britain.

The funeral arrangements were handled by the Lacombe Funeral Home.

#### STORES CLOSED JAN. 2

Next Monday, January 2, all stores and places of business will be closed in Lacombe. On Wednesday, January 4, stores will remain open for business all day, the usual Wednesday afternoon holiday being discarded for that week.

#### Silver Mug to Be Presented to First Baby of New Year

A silver mug will be presented to the first baby born in the Lacombe and District Community Hospital after 12 o'clock midnight, Dec. 31, by Mr. B. S. Cameron, of Cameron's Studio.

Along with this silver mug will be given, absolutely free, a photograph of the baby taken at any age between six months and one year. Last year's winner of a silver mug was Joyce Marguerite Weatherill, daughter of Mr. and Mrs. Gordon Weatherill of Tess. The mug will be presented to the mother of the child at the hospital by the chairman of the Hospital Board, O. W. Hueppelheuser, and by the doctor attending the birth.

#### C.G.I.T. Groups Ship Clothing To Saskatchewon

Christmas hampers containing clothes and necessities for the needy were shipped to Radville, Sask., recently by the three C.G.I.T. groups here. A letter of receipt, thanking the groups for their splendid donations, has been received, and reads, in part: "The things that you have sent to me for distribution among the needy children of the drought area will be a great help in meeting the needs of some of the poorer children. We are again planning to help some 1000 children and some of the elderly people and if it were not for friends like yourselves we could not hope to do this most worthy work."

**DANCE AT LINCOLN HALL**  
The hockey team is holding a dance in Lincoln Hall on Friday, Jan. 6, 1939. All proceeds will be used for purchasing equipment for the hockey team.

#### Visitors To Markerville

### A. W. Gunn, Bentley Died Xmas Day

(From Our Own Correspondent)

BENTLEY.—Alex Wm. Gunn, a highly respected resident of Bentley for the past four years, passed away at his home Christmas afternoon, following an illness of several weeks. He was 81 years of age. Born in Ontario, he later went to the States, residing at Rapid City, S.D., for some time. From there he came to Alberta about 1899, settling in the Wetaskiwin district, from which place he went to Cadogan, Alta. After living there for several years, he moved to Bentley.

Besides his widow, he leaves to mourn his loss two sons, Charlie, of the Peace River district, and Hugh, of Lacombe; six daughters, Mrs. Maggie Rhysan, Bawlf; Mrs. Jennie Jeglum, British Columbia; Mrs. Irene Lehman, Consort; Mrs. Lulu Young, Rapid City, S.D.; Mrs. Jessie Peterson, Bentley, and Mrs. Jean Nelson of Cadogan.

Funeral services took place at the Bentley United Church Wednesday afternoon.

### Christmas Day Brings Real Cold Spell

Those who were bemoaning the fact that owing to the mild weather it was not like Christmas, changed their opinion quickly when "Old Man Winter" swooped down last week-end with a suddenness that had everybody shivering. And it all happened so quickly. Most of Saturday showed the thermometer at 59 above, but by Monday morning the fluid had touched 25 degrees below—a change of 54 degrees.

With such a rapid change in temperature, a number of people were caught "napping" and the garages did a land office business towing in cars that had become frozen up. All indications point to a continuance of the cold spell—the coldest so far this winter being 31 below on Wednesday morning. To make the Christmas more real, 1.30 inches of snow fell last Sunday, giving a snowy white touch to the festive season.

### Christmas Program at Bentley, December 21, Draws Large Crowd

(From Our Own Correspondent)

BENTLEY.—A varied program suitable for the holiday season was given at the Bentley Community Hall on Wednesday evening, Dec. 21. The annual Christmas tree was run in conjunction with the program. The teachers of the Public and High Schools, those of the Sunday School and the Senior C.G.I.T. group each made themselves responsible for a section of the program.

N. Dameron's High School pupils put on a short play, "Christmas at Joyville." The Intermediate pupils, under the direction of their teacher, Mr. Shackleton, also presented a play, "A Christmas Strike."

Miss Carter, Primary teacher, had arranged a couple of drills, some songs and recitations. The Sunday School gave a varied assortment of group songs, recitations, etc., and the C.G.I.T. group's contribution was a pageant.

Each number was excellent. At the close, Santa appeared with treats for the youngsters.

#### C. M. BOYTON TAKES OVER PRACTICE OF E. H. JONES

## Ring Out The Old...

SATURDAY night the world will usher in a New Year with customary fanfare and celebration. All over the world whistles and bells will be blown and rung; orchestras will swing into "Auld Lang Syne" and toasts will be made to the next twelve months. "Hope springs eternal in the human breast", and so it is only natural that the peoples and leaders of the world will look forward with optimism to the year 1939.

Whether this optimism will be justified is for the future to decide. Astrologists and crystal gazers will make their usual forecasts, and just as usual mistakes. One thing, however, is certain regarding the coming year: 1939 will definitely decide whether or not dictators and democracies can co-operate with one another. This past year has been marked with several international crises. The Munich pact looked upon for a few short days as a broad basis for future settlements between the "have" and "have-not" nations, seems now to be an empty and meaningless "scrap of paper." Whether or not it will prove during the next few months to be just this, will be for 1939 to decide.

Closer to home, we have our own economic troubles; we have the burden of relief still taking a large bite from the ratepayers' budgets; we have the Turner Valley situation with the scandalous waste of gas evidently no nearer solution; we have a large crop—and no price for it.

Yes, we have all these troubles—and more. They will be tough to solve; they will require courage, and above all, a consensus of the people, to solve. They can, however, be satisfactorily disposed with if they are faced dauntlessly. Let us hope that the year 1939 will bring an end to these troubles.

But why be serious? It's New Years, and with supreme faith for this great country's future, we wish all Globe readers, individually and collectively, a Happy, Contented and Prosperous New Year.

## The Youth Program

TUESDAY, January 3, another Youth Training School course will open at the Central Alberta Pavilion here, when registrations for the three-week course will be taken. Well over 100 students enjoyed the advanced of last year's school, and a large number will be back again to take a second term course in the various subjects.

The advantages of training the youth of this country cannot be over-estimated. An educated and well informed youth is a progressive and modern country. According to Minister of Labor Norman Rogers, "our young people constitute the greatest single asset which we possess"; and in this statement he will receive the unanimous accord of Canadians.

It is hoped that a large attendance will turn out to the Central Alberta Pavilion and take advantage of the instructions offered, free of charge, to all students. It is a worthwhile work which the Government has undertaken.

## Cashing in on our Assets

(From the Toronto Daily Star)

CANADA and the British commonwealth are fortunate that a great crude oil pool is developing in the Turner Valley in the Province of Alberta. Only a few important oil fields are located under the British flag. Most of the oil used by the British navy has to come from foreign countries and by routes that would be vulnerable in times of war. The oil of Turner Valley has come along at an opportune time for the British admiralty. Oil can be imported by Britain more safely from North America than from any other point of the compass. Badly as the Chamberlain government has bungled the defences of Britain, it will scarcely ignore the development of this great new oil field under the British flag.

The matter is not less important to Canada herself. This country is spending 60 million dollars yearly in purchasing foreign oil. Yet the Turner Valley field is capable of producing sixty thousand barrels of oil per day or 22 million barrels per year, which is roughly one-half of the requirements of the Canadian market. It should be possible for much of this oil to be brought across country to Sarnia to displace oil that is imported for refining. But the railways would need to give a reduced freight rate on Alberta oil. They are languishing for lack of traffic and should go after this business with the determination to get it. Every month improves the prospects of the Alberta field. The proven extent of the oil-bearing area has doubled and tripled and promises to be still further increased. The estimated maximum quantity in the field already is placed at one and a half billion barrels.

Something would be wrong with the mentality of this country if it clamped down its oil wells and limited the production of its oil companies and burned as waste quantities of natural gas while it continued to send sixty million dollars of good Canadian money abroad for imported oil and piled up huge steam railway deficits.

## Through the Eyes of a Country Woman

By BRIDGET

As we embark on 1939, I suppose we will all indulge in the age-old custom of making resolutions, and before a week is past, these resolutions will probably all be broken. This making and breaking of resolutions may seem a waste of time and energy, but I don't believe it is. By the very act of making a resolution we are acknowledging that there is something which we would like to do better about ourselves, or maybe, our conduct towards others. It is a species of mental stock-taking which is, I am sure, very good for our souls! Even if it does not accomplish a great deal, we, at least for a while, admit that all is not perfect about and around us.

Nineteen hundred and thirty-nine turns over a new page for all of us, offering a new chance, a clean slate, and most of us cannot resist the chance, and endeavour to keep the fresh sheet sweet and clean for a little while, at any rate.

This last year has brought bitter disillusionment to many. Nations are still warring; dictators are growing stronger; democracy is waning; the armament race is being run with greater speed and intensity by all "civilized" nations. Nineteen hundred and thirty-eight is not a year which the world can be very proud; nor is this New Year getting off to an auspicious start. All the wars of last year are still raging with a few added, and fears for more fire in the air, and a great people are being persecuted.

That great experiment in democracy, Czechoslovakia, is no more. I am cognisant of the fact that that state still exists, but that is all! With all the democratic nations washing their hands of her, she, perforce, has had to smother her ideals and become Nazi, or be exterminated. Hope is dead in that gallant little state.

There have been representations for a cessation of hostilities in Spain during the holidays. There is something brutally callous about this proposed armistice. It is rather as if a butcher were to start cutting up a still-living animal, and leave it to go off and have a good rest before returning to finish the slaughtering. Rather brutal, and yet even here one sees the acknowledgment by the participants in this vile war, that they realize that it is a beastly thing which they are doing, and that they are ashamed of being found doing it at this festival season.

The Jews are being crucified in all Fascist States, and it adds nothing to the credit of we Christians that it is so. Yet, on the credit side, we find Christians in all democratic nations joining together to try and alleviate the Jews' lot by transferring them to other lands.

The state of the world hardly bears thinking about, and we all must sincerely work for the betterment of it. Let us make the most of our New Year's Resolution, and let us keep it. Each one of us can do our little bit towards it. Education will play one of the most important roles in the betterment of international affairs.

The "appeasement policy" in Europe, and elsewhere, has proved itself to be a failure. What has it gained for anyone but the Dictators? True understanding of each others' problems, and each others' mentality, is the logical starting-point toward peace; and the correct time to start that is right in the schoolroom. The teaching, and learning, of real co-operation and languages could be two good solid blocks on which to start the building of peace-minded nations. How can a statesman get a "good deal" for his country if he has to rely on an interpreter; yet it is rarely that British statesmen are linguists. Many "statesmen" reach prominence through being able to lecture, or write learned books on economics, which (with exceptions), are mainly clever expositions of economic theories, and not practical facts. Some leaders have gained their position through the gift of oratory, a few through accident of birth, or maybe, through organizational ability, but few through love and understanding of their fellow-men.

I am afraid I have wandered very far from the topic on which I started; perhaps I should make a resolution to stick to one subject at a time; but the trouble is I know only too well that, in common with most other resolutions, mine would be broken within seven days.

I would like to take this opportunity to wish everyone a prosperous New Year; to all farmers, good crops and reasonable prices, and to my fellow-farmers, I wish good health, happy children, and a contented, busy and useful 1939.

It is important, in trying to reduce, that first of all you give close attention to your posture and carriage.

Surplus fat in various parts of the body is often caused by incorrect posture. A double chin is brought about by constantly holding the head down. Layers of fat accumulate at the part just above the waist, because of wrong carriage when walking and careless posture in repose. The hump at the back of the neck is fatty as the result of incorrect head posture.

Hold your head erect, chin in, shoulders back, and your chest high, with abdomen flat. Walk and sit to your full height. Not only will you gain in beauty, but you will gradually flatten out some of those curves of fat you have accumulated.

There is no use in indulging in vigorous reducing exercises if your posture is going to offset the benefits.

Here is a sit-down exercise to bring a youthful neck and chin. Drop chin forward onto chest. Then raise head upward and let it fall backward, chin in air. Turn head sharply to left, then to right and return to first position. Do this five times and repeat the movement several times throughout each day.

## The World of Wheat

By MAJOR H. L. STRANGE

An important meeting to consider our serious wheat problem has just been held in Winnipeg. Authorities on every phase of the Canadian and international wheat industry presented their facts, their findings and their studied conclusions.

A distinguished visitor from Toronto stated that if only the people of Eastern Canada could realize the sad condition our wheat growers are in, that unquestionably the East would then be not only willing, but indeed anxious to assist our Western farmers in a most generous way.

While little was brought out by the speakers that was not already well known to serious students, yet it was surprising to find that the greater part of the large audience, farmers and business men alike, seemed unaware of many of the simple basic facts presented.

Because of the seriousness of the situation, it occurs to me that it would be a most excellent plan for farmers in every district would form wheat study circles, would endeavour to obtain important truths about the wheat industry.

Following factors have tended to raise prices: Continued unfavorable conditions for U.S. winter wheat; European demand reduces Argentine unsold corn supplies; continued drought persists in North West India; British pound makes slight recovery; Frost and high winds damage Californian crops.

Following factors have tended to lower prices: India reimposes duty on imported wheat; France imposes tax above regular duty on Durham wheat imports for home consumption; Germany arranges to buy 100,000 tons of wheat and other grains on barter basis; Useful showers in Algeria and Tunis; Lack of confirmation of large Danubian purchases by Italy and Germany.

Mr. and Mrs. Tony Sloniewski left last week for a point on the C.P.R. out of Edmonton, where he will work on the C.P.R. section. He has worked on the Bentley section C.P.R. for the past four or five years, and friends here will wish them success in their new home.

Mrs. Charles Moore and little son of Vermilion arrived last week to spend holidays with her parents, Mr. and Mrs. Duncan.

Bentley residents spending the Christmas holidays at other points include Miss Olive Heighington, at her home in Breton; Mr. and Mrs. M. S. Witherell and family, with Mrs. Witherell's mother at Calgary; Mr. Manning at Edmonton and Tony Jelling at the coast.

## Home for Holidays

Bentleyites from other points spending holidays at home include the Misses Judith Rea from Olds School of Agriculture; Violet Lester, Alberta College, Edmonton; Lucille and Bernadette Gilleman, St. Joseph's Convent, Red Deer; Harry Hewitt and Albert Thorp, University of Alberta, and Mrs. A. Thorp of Edmonton.

Alex Shewan was down from Pigeon Lake the first of the week.

The Sorby family, who have been occupying Mrs. H. Stevenson's house, have moved to the Thorp cottage vacated by Mr. and Mrs. Sloniewski.

Rev. and Mrs. Warren motored to Edmonton on Thursday last to meet Mr. and Mrs. R. B. Pattison and children of Ashmont, who are spending holidays here. Mrs. Pattison is a sister of Rev. Warren. They will also visit relatives at Tees before returning home.

Mrs. Willse, Pearl and Loretta were in Consort last week to attend funeral services for Mrs. Willse's sister-in-law.

The Dickan family spent Christmas with Mrs. Dickan's sister, Mrs. Hepburn, and family, at Ponoka.

Ralph Thorp was down from Pigeon Lake for Christmas. Glenn Williams was up from Calgary to spend Christmas with relatives here.

Mr. and Mrs. James Thomson of Leedale were visitors at the home of Mrs. Reid last week. Mrs. Thomson is Mrs. Reid's grand-daughter.

and then would study and discuss these truths.

Out of such studies I believe would come a West solidly united at least on this wheat question. Such a united front would give weight and authority to requests for just compensation and assistance made to the Dominion Government on behalf of our Western farmers.

## Australian Native Exhibits Pictures

ADELAIDE, South Australia.—Australian art circles have been intrigued by the water color paintings of a full-blooded Australian native of the Arunta tribe, Albert Namatjira, who is holding an exhibition.

His pictures have been brought from Central Australia by Rex Batterbee, a Victorian artist and teacher. Albert Namatjira in his younger days was the fastest runner and the strongest man in the Arunta tribe.

## Blackfalds

(From Our Own Correspondent)

**BLACKFALDS**—Our Christmas concert, held on Dec. 23, went off splendidly. Kenneth Dane, who was down here for the holidays with Mrs. Dane from Gadsden, kindly took over the chairman's duties, and a program of over 20 items went off without a hitch. There were many dance items and Miss Arrowsmith had some pretty costumes for her pupils; she and her room were responsible for the tasteful decoration of the hall. Santa arrived at the conclusion of the concert and the children were all pleased to see him and to receive the candy bags donated by the Ladies' Aid and the other presents that were placed on the tree.

A mean thief was at work at the hotel during the week-end, and pilfered much of the contents of the box set up there for donations towards the Christmas treats for the children.

## A Buying Guide . . .

Before you order dinner at a restaurant you consult the bill-of-fare. Before you take a long trip by motor car you pore over road maps. Before you start out on a shopping trip, you should consult the advertisements in this paper. For the same reason!

The advertising columns are a buying guide to you in the purchase of everything you need—including amusements! A guide that saves your time and conserves your energy; that saves useless steps and guards against false ones; that puts the a-z-e-c-h in family budgets.

The advertisements in this paper are so interesting it is difficult to see how anyone could overlook them . . . fail to profit by them. Just check with yourself and be sure that you are reading the advertisements regularly—the big ones and the little ones. It is time well spent . . . always.
